## 三大核心黑科技王

### 同步守护 | 3 CORE SMART TECHNOLOGIES WORKING TOGETHER

主动分解甲醛与异味, 持续抑菌防霉, 结合智能空气循环系统, 让衣帽柜成为看不见却持续运作的“空气护理管家”, 让每一件衣物与专属空间都能呼吸洁净空气, 为家人专属空间注入【自带防疫】与清新活力的健康生活空间。

Actively decomposes formaldehyde and eliminates unwanted odors while continuously inhibiting bacteria and preventing mold growth. Paired with an intelligent air circulation system, the wardrobe becomes an invisible yet constantly operating “air care housekeeper.”

Every garment and every dedicated storage space is surrounded by clean, breathable air. It creates a healthier living environment by supporting hygiene, freshness, and ongoing air purification—bringing renewed vitality and peace of mind to your family's exclusive space.
